Admission of Oregon.

Oregon was admitted as a State of the American Union on Statrday—the bill having pased the House of Representatives by a vote of 114 to 105. The same hill passed the Senste at the previous session of Oregon. The President will of course sign it immediately and Mesara. Jo. Lane and Delanon (alias Delasion) Smith will be estitled to seats in the Senste of the United States. The Republicans generally opposed the admission, not knowing any valid reason why a Territory in the Pacific should be estitled to come into the Union with forty thousand inhabitants, while another on the Missouri is ruled out till abe can show 90,000 or 100,000.—The result will perhaps relieve the Democracy of our Legislasture, who have been under much concern as to the wrongs of that distant com-

Completion of the Hammibal and St. Joseph Railroad.

We learn, by way of St. Louis, that the last rail on the above rond was haid down on Saturday last, and that the cars will probably commence running over the entire distance to-day. The completion of this road will entirely change the line of travel between this city and the Missouri river. I ustead of going by the roundabout way St. Louis, travellers will pass over the Chicago, Burlington and Quiney road to the latter place; thence twenty miles by steamer to Haonibal, and then by the Hannibal and St. Joseph Railroad to the Missouri. The entire distance from Chicago to St. Joseph will be made in about twenty-six hours, being a saving in time of from three to four days over the St. Louis route. A large portion of the Emigration to Pike's Peak wild doubtless pass over this road.

New York Money Market. [From the Independent, Feb. 10.] The rales for the use of money have again advanced, and the tendency is to a turther advance, although the market continues asay to borrowers. There is more business paper of fering. Money is more if demand, but there is no lack of it in business circles. The banks find their deposite running down. Last web's returns show a loss of \$1.572.679 while the specie has diminished \$1.533.549. The loans run up \$775.957. What makes the statement worse is that the specie average is a declining one, while the average of loans is an increasing one. A large increase in the circulation appears also—usual on rent days. The demand liabilities are now 100 millions. Some of the beach statement worse is that the specie average is a declining one. A large increase in the circulation appears also—usual on rent days. Twelve years ago, the Legislature appointed three Commissioners to wind up the affairs of the old State Bank of Illinois. One of these, the now notorious John (Candlebox) Calhoun, has for nearly five years been a resident of Kansas, in the meantime drawing his annual salary. The other Commissioners, N. H. Ridgely and Uri Manly, have, with the aid of a clerk and formedity a treasurer, had the affair to their The Chicago Harbor Appropriation. The following from the Congressional Globs lains the action of the House of Representat formerly a treasurer, had the affair in their hands; but up to this date, have never made a report of their doings or progress. It is known that large assets have been in their hands; but that large assets have been in their hands; but hew they have been appropriated does not appear. Mack, of Kankakes, a sealous Spoublican, has had his curiosity in relation to this matter so much excited that he to-day moved in the House, the appointment of a committee of lavestigation for the purpose of overhauling the heap. The motion was agreed to, and Mack was put at the head of the committee, with Detrich, of Randolph, and Campbell, of Logan, as associate; and now the investigation will go on. Without hinting that the trust has not been well and faithfully managed, I may say that it is time that knowledge of the condition of the bank was made public.

The Commissioners named in the bill are Michael Ternan, Henry Greenebaum and Dr. Ernst Schmidt, the latter the President of the German Aid Society. They have no salary or fee. The Superintendent is allowed \$1,000; the three Deputies \$000 sech. Of course, the Democracy could not permit the opportunity to go by without an attempt to make political capital out of this matter. The Commissioners named by Mr. Sats, in the original bill, asspected of Sepublicanism, were thrown overboard without confirmation, and three partisans elected instead. The Very Louist from the Mines.

From the Sorville (S. T.) Advertise:]

We had yesterday the pleasure of meeting Messrs C. A. Lawrence, Dr. A. S. Kaukie, J. W. Winner and James Hall, who arrived at this place direct from the gold regions on the St. January, and arrived here on the last of February, lynag by four days.

From these gentlemes we gain the most valuable and reliable information. Mr. Lawrence is of the "Lawrence Company," that left Lewrenworth last fall. Dr. Kunkle is from Shoux City, Iowa, and west out by the Ombar roote. Mr. Winner is from St. Louis—son of Ex Mayor Winner—and Mr. Hall is from Lewrenworth.

These gentlemen have thoroughly prospected, and exhabited specimens of the precious metal. Mr. Lawrence is an old California adventurer, and has no hestiancy in presonneing the Cherry Creek mines equal, if not superior, to any of those of California.

Those now mining, under the many disadvantages, are making from \$45\$ to \$13\$, and often \$15\$ per day—Louis 50 32 cents per pan. Gold is found from the surface down to the bed rock, a depth averaging filteen feet. The nelly difficulty at present, is the want of wiser. But as saveral companies of completent cipitalists are already organized for furnishing water, this, therefore, cannot much longer remain an obstacle of any consequence. The gold yel found to any extent, in collecting the finer aed more valuable particles.

Mr. Toombe's aprech on the tariff to day is acknowledged on all sides, to be very damaging to the Administration. He proved that Mr. Buchsans had involved the country in a debt of 230,000,000 deeper than did Gen. Figree, and he charged that Mr. Buchsans was not so much to blame as Messra. Toney, Floyd, and other sepretaries. that he will sail from Galway within a short time he charged that Mr. Boehanas was not so much to blame as Measts. Touey, Flord, and other servetaries.

Senator Hunter's action in sacrificing the Consular and Diplomatic Appropriation bill to Mr. Sidell's thrity million dollar scheme for "Greating" Cubs from Spain, is severely consucred. Senators Seward, Doulitie, Simmons and Wilson promptly rebuiled him for the act.

The Oregon bill will come up for consideration in the morning hour to morrow. An amendment will be moved repealing the population restriction clause in the Kansas Conference bill of the last session. It is reported that the Speaker will rule it out of order. The liepublicans will not oppose the admission of Oregon by any factious action as has been reported.

The Free Traders declare that they do not consider the socien of the House Democratic cances to-light, that beligatiff of '71 is insumdient, binding upon them. The Protectionist, though only in the ascendacy by eight votes, are in contacles. Measts. Arnold and Bushop, of Cons., were absent, thereby weakening the strength of the Protectionists.

The large amounted business to be crowded into the remaining inteleen days of the semion, with neither of the Appropriation bills yet passed makes it almost impossible to avert an extrassion of next Congress. —The Washington letter writers in the interest of Mr. Dongias boast that at least fifty Southern members of Congress with their families were present at a party lately given by him. the matter with her?
Having bowed respectfully to this worthy emale, we passed on to survey the company sampled. In order to furnish you with the test reliable information I obtained from my beerving and learced friend a little tabular, attempt of the guests, who were arranged relative proportions about as follows:

appropiate and publish the brilliant specches of the others; the two judges looked down on the twenty professional, and business men who looked up; the men-about town stared pleasantly at passersby, as if to say: What the ducce brought you here, you miserable workers for a living? The dancing men danced excellently well, and all the ladies were of course charming agreeable refined intelligent lovely and brilliant as Heaven's last, best gift to man always can be, as every reporter for the morning newspapers well knows.

But O companion of my cariler years as a pensive student of the human race, iwas expecially impressed with the dancing men. It is a good thing for a young gentleman to be able to dance gracefuly, to trip bis fantasite toes without any danger of tripping to career in astounding gowynastic style throuth a crowded saloon; it is peculiarly delicious, probaply, for him to do all this with his arms full of palpitating female lovelloess, a soft hand clinging to his shoulder, a flushed fair cheek close to his own a quick balmy breadth, stirring his right whisker; but when the young gentleman can do nothing else, then he becomes wonderful to look upon. Reflect, O Abel Hassan, upon the young gentleman in question, born a purple baby lato this puzzling world some duarter of a century ago; pursed with infinite trouble through infancy and childhood, trained with bireben red abrough all his boysh days; some prayers offered up for his guidance; some payers offered up for his guidance; some prayers offered up and his contribution of daty; and behold his exertions in the matter of life oulminate in the gymnastics of the German and the Emeralda. O, well drassed young gentleman, with your well cut pegtops well disting a wallostall, immenuals kids, spotless linen, tensorially triumphant curls, slender mountains, has been any stored to my friend Abel, Bel Hassan, some food

A few months since by one of those singular occurrances which, though they are alide angel's visits, few and far between when they happen, to bring joy and happiness to the soul he learned of the lady being in the Wolverine State, and that she was true to her first love. With a heart and frame made stronger by the happy tidings, he was soon on his way to join her. He arrived at Detroit about a month ago, and heard of her being at Ypsidati. He went teere, out she could not be found. He returned to this city with a despondent heart, and after remaining here a few days, again started for Ypsilanti, where he found the long sought after, and long loved Duleins.

—The Paria correspondent of the Beston Troveller writes:

A suitzen of Beston was arrested here on Thursday, on suspicion of compassing the death of Louis Napoleon. I need scarcely say the suspicion was groundless. Mr. William Lee (some time of the fram of Messre Philips, Sampson & Co.) was skrolling in the garden of the Tulberies, enjoying the dise alr, admiring the statues and pleasing groups of children engaged in their various sports, when his attention was attracted toward the Palace. He sanutered near the referred portion of the garden to see what was going on. He had been there some minutes when he perceived two men watching him rather closely. Thinking they were gratifying a natural earliesity by looking at a foreigner, he goodnaturdly hore their examination, until he become tired of looking at the chooward. To his surprise these men followed him, and when he quitted the garden coad gently locked arms with bim, one taking his right and the other his left arm, and told him he must go with them to use Prefecture of Pottec. He was taken before the Commissary of Police charged with the care of the Emperor's afety. Mr. Lee explained to the Commissary of Police and open the surprise of the policemen.
